

COVID-19 News in Miyagi and Updates in 2020

From December 28	The suspension of the Go To Travel campaign*
December 4	One student in Natori campus was found to be infected with the COVID-19 virus. The student never visited the campus from the onset of infection (<i>ca.</i> Nov. 28) and had no contact with other students nor faculty. Following instructions from the local health center, our college continues normal operations.
November 25	One student in Natori campus was found to be infected with the COVID-19 virus. The student never visited the campus from the onset of infection (<i>ca.</i> Nov. 22) and had no contact with other students nor faculty. Following instructions from the local health center, our college continues normal operations.
In November	Due to infection of students, several junior-high and high schools near our college closed for a few days
October 27	46 cases caused by a cluster at a vocational school
In October	Two clusters at a nightlife district and a hospital
From October 1	Tokyo has been included in the Go To Travel campaign*
